tvplay - UX Scenario for App QA

App: tvplay (com.tvplay.tv) | Version 1.0.0 | webOS 2018 and later

About the app:
tvplay is a video player for the user's own M3U playlist or media server. It ships with NO content.
The user enters an access code plus their own playlist details. Content is organized into Live, Movies and Series.

Demo access for QA (tvplay's own demo videos only, hosted on the tvplay website):
Access code: DEMO2026 (leave server, username and password EMPTY)

Remote control keys:
Arrows = navigate OK = select / play Back = go back
During playback: Back = shrink video to a small window; OK on the small window = full screen again
Movies/series: Left/Right = rewind/forward 10 s; Play/Pause keys supported
Live channels: Up/Down = previous/next channel
Hold OK on a cover = add/remove favorite
Magic Remote pointer is supported (point and click).

Interface language: English (or Portuguese when the TV is set to Portuguese). Screenshots below are from the Portuguese UI.
Data: the app only stores a device code (MAC + key) to check access. No ads, no in-app purchase, no account creation.

Step 1 - First screen (activation)

The app opens on the activation screen.
Select "Sign in with code" and press OK.

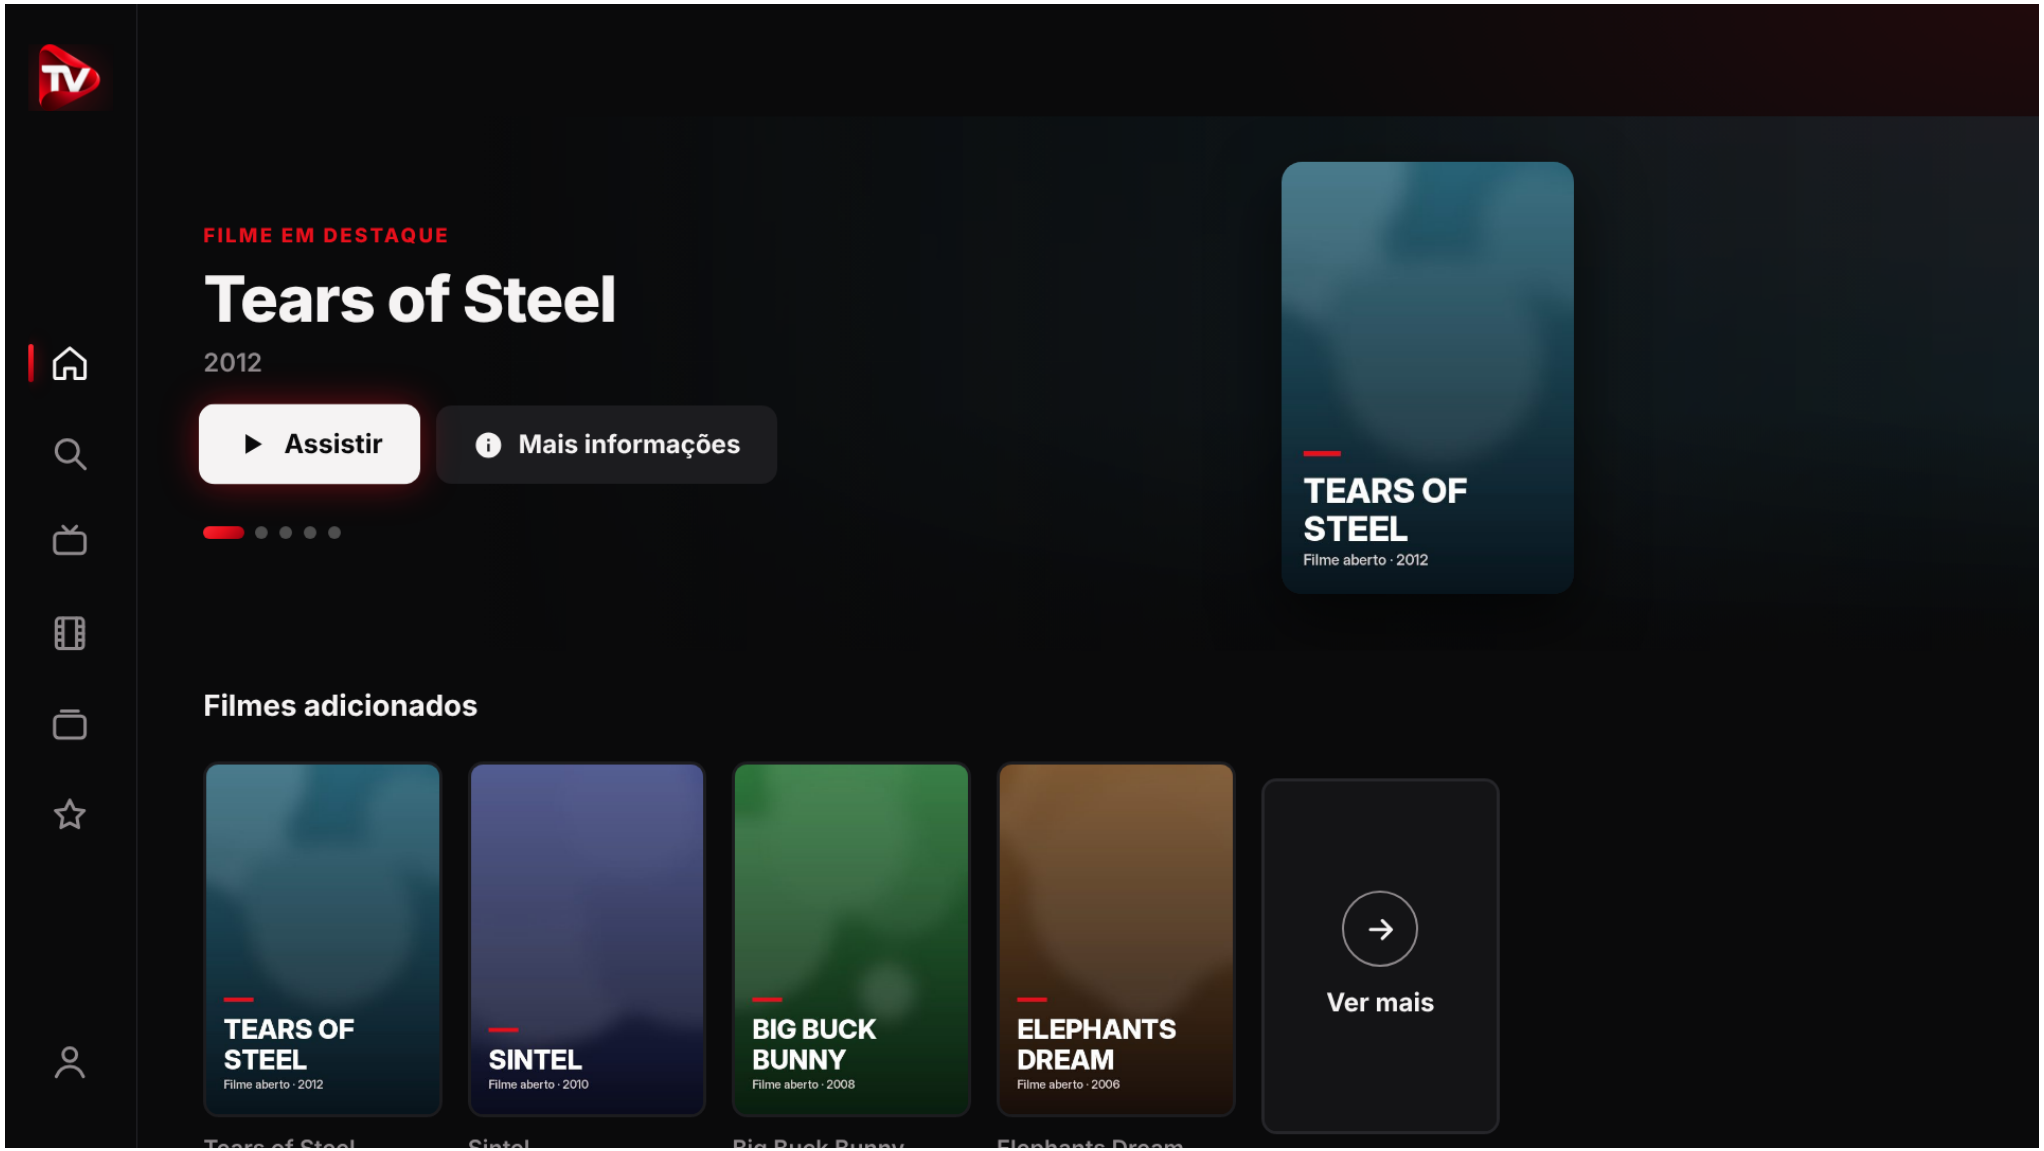

Step 2 - Enter the demo code

In the field "Code" type: DEMO2026 and press OK/Enter
Leave the server, username and password fields empty.
Focus moves to "Sign in". Press OK. The demo content loads.

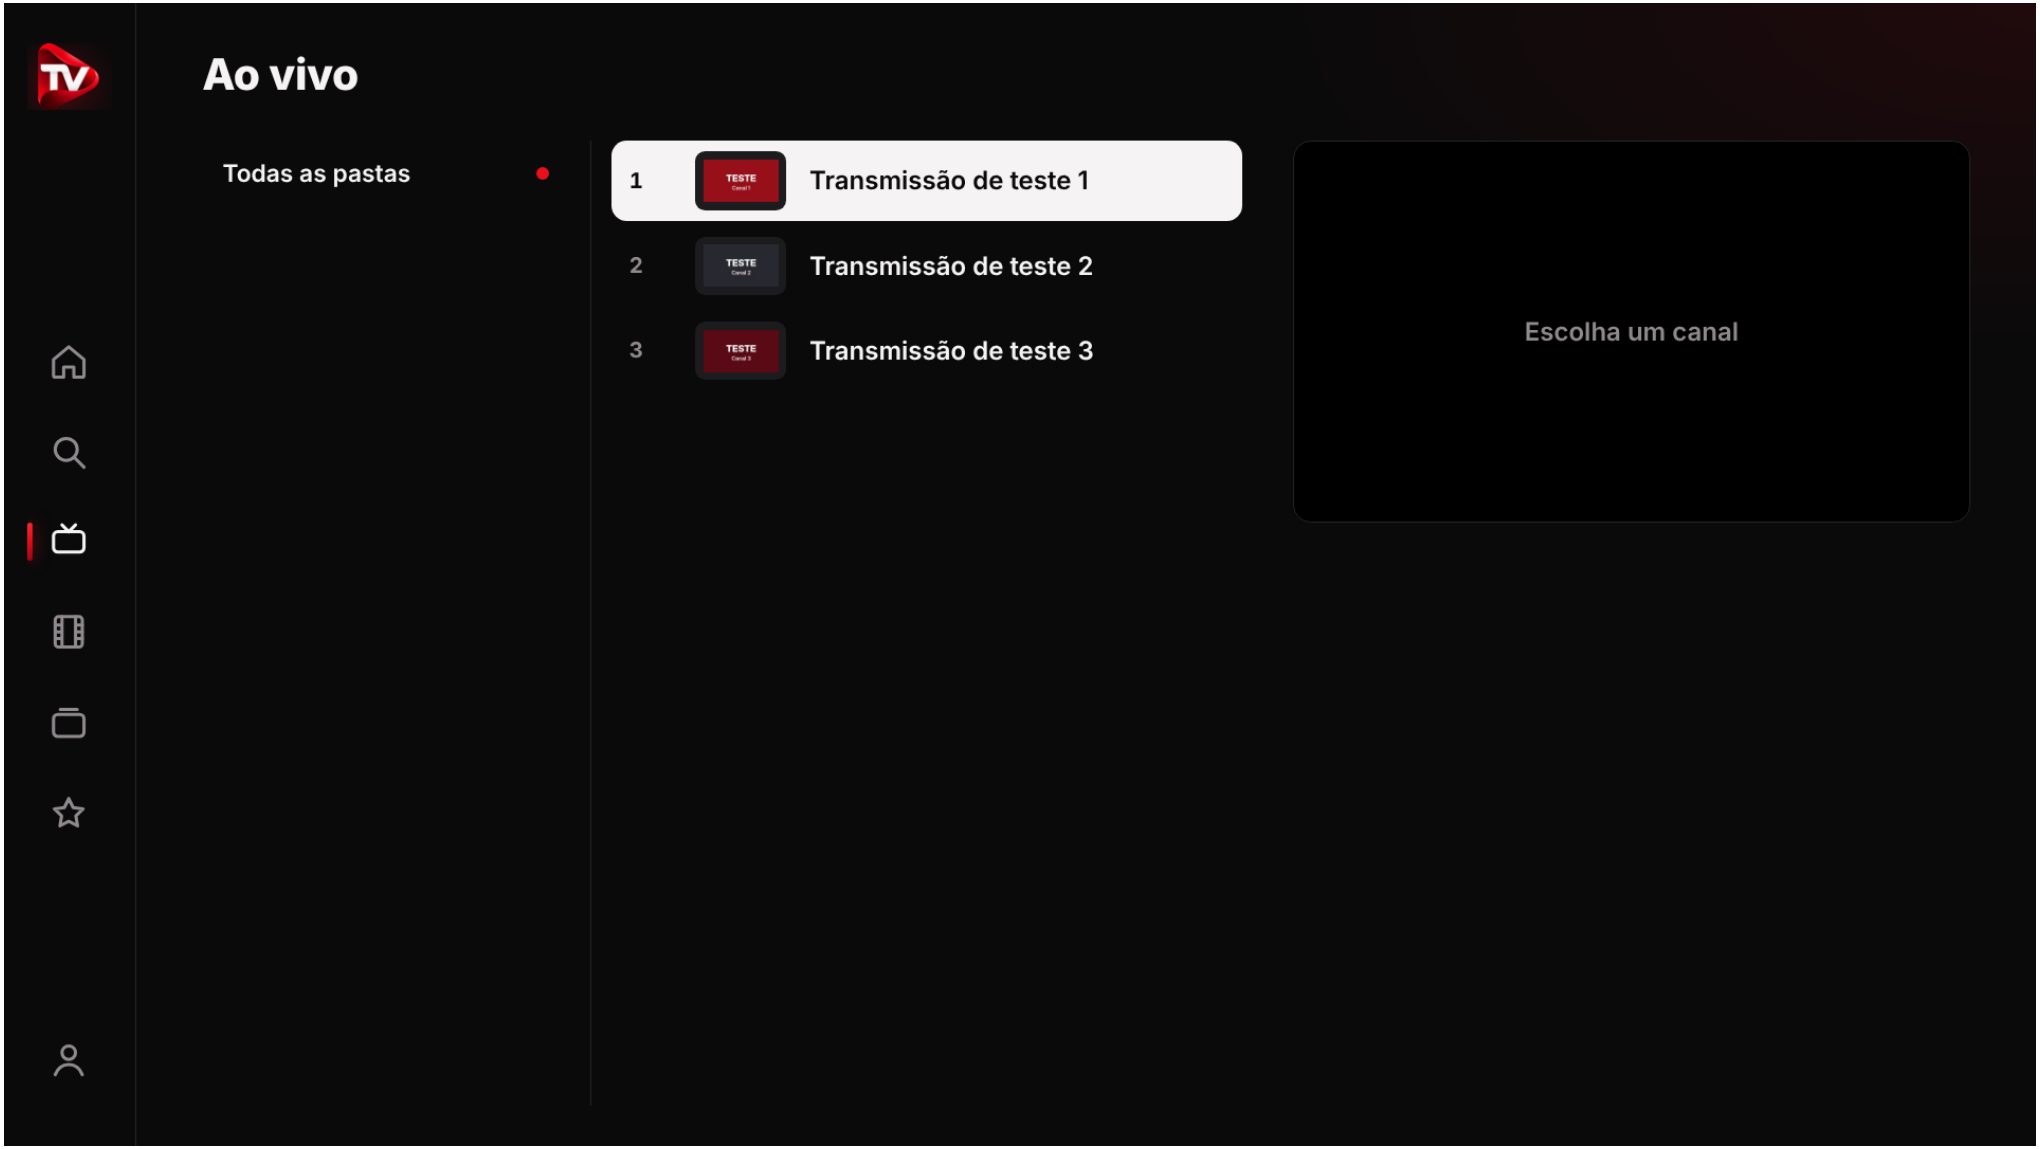

Step 3 - Home (Inicio)

Home with a rotating highlight, rows of content and "Ver mais" (See more).
Use the left menu: Inicio (Home), Ao vivo (Live), Filmes (Movies), Series, Buscar (Search).

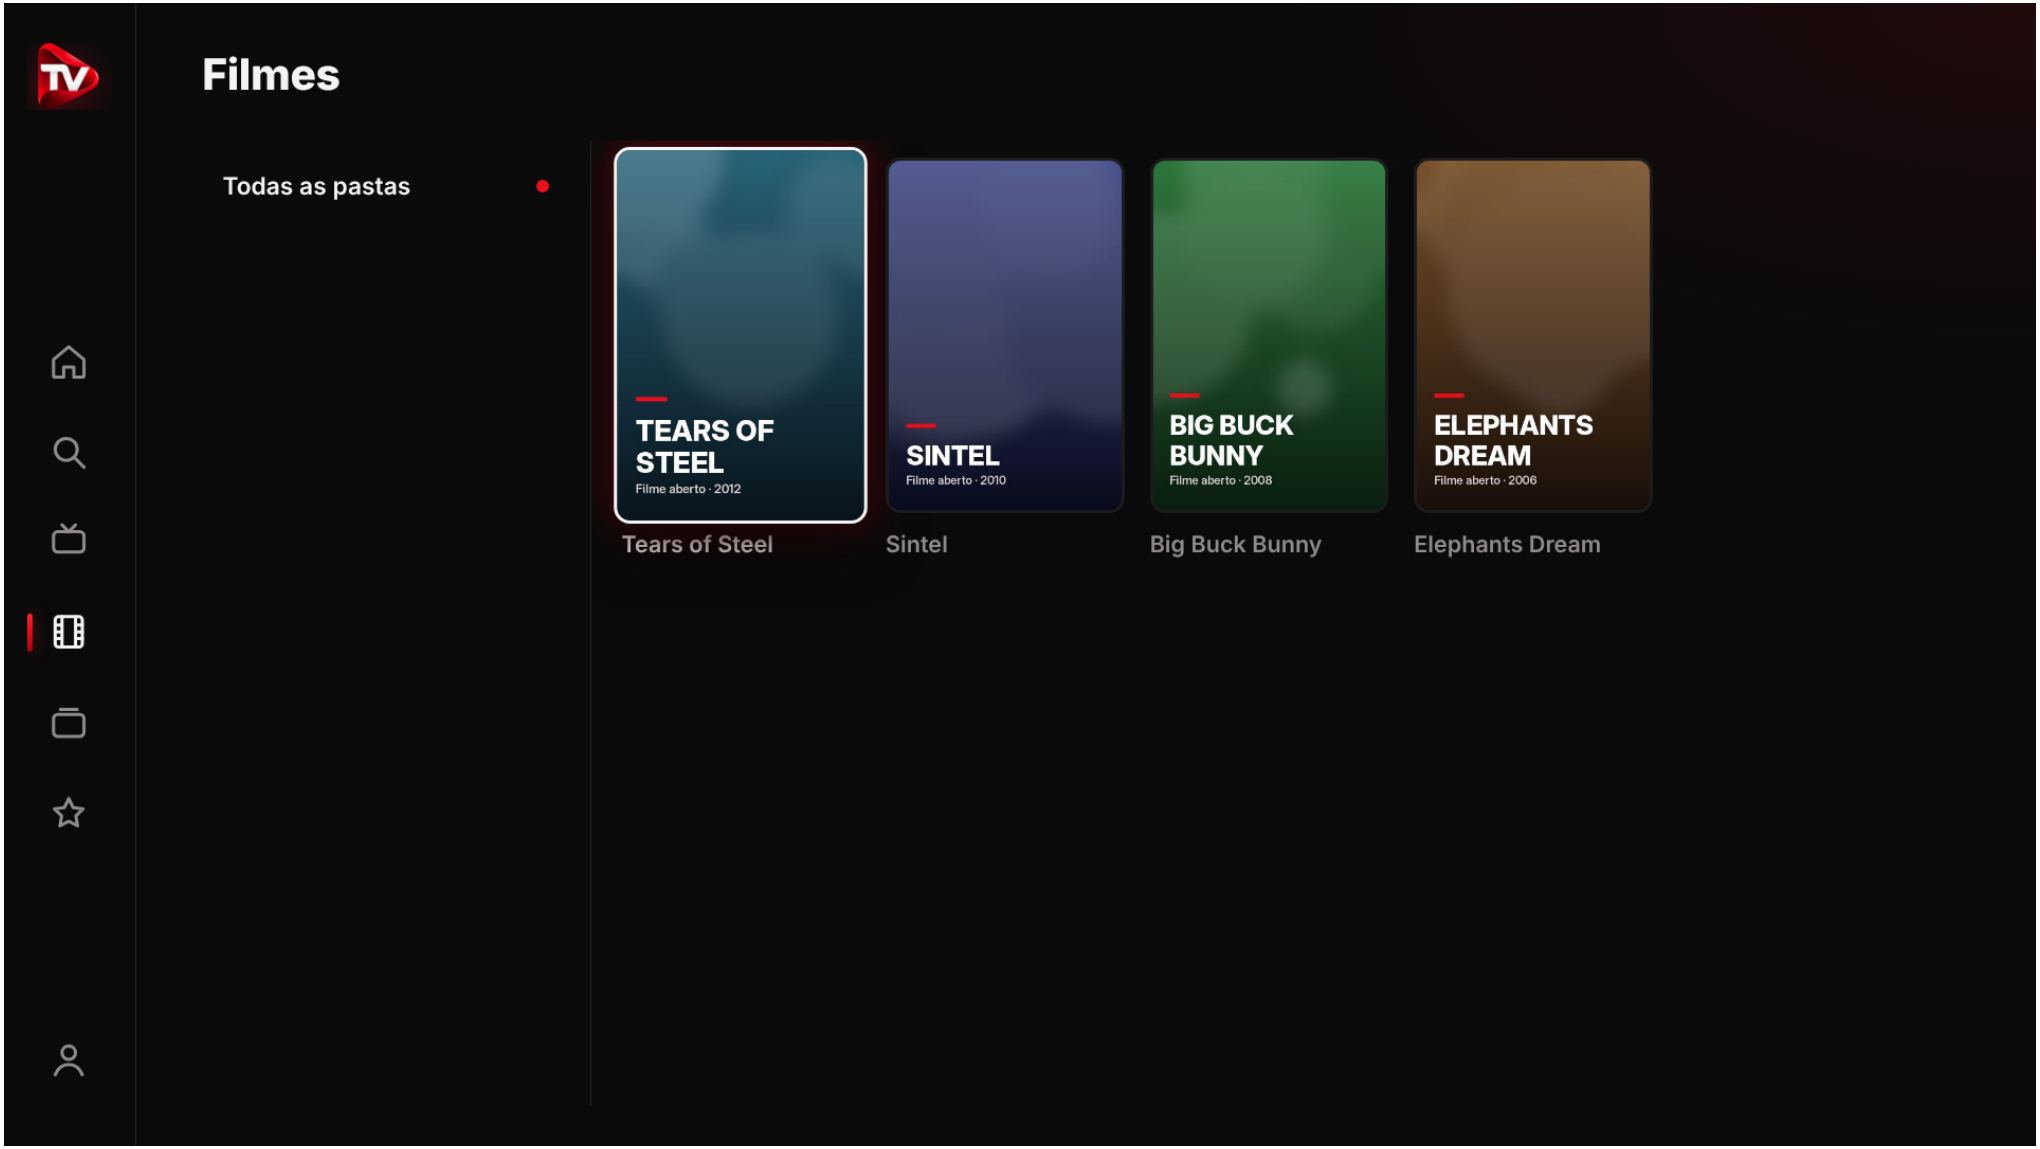

Step 4 - Live (Ao vivo)

Folders on the left, channels in the middle, video preview on the right.
Press OK on a channel to play full screen. Up/Down changes channel.
Back shrinks the video to the preview; Back again leaves the section.

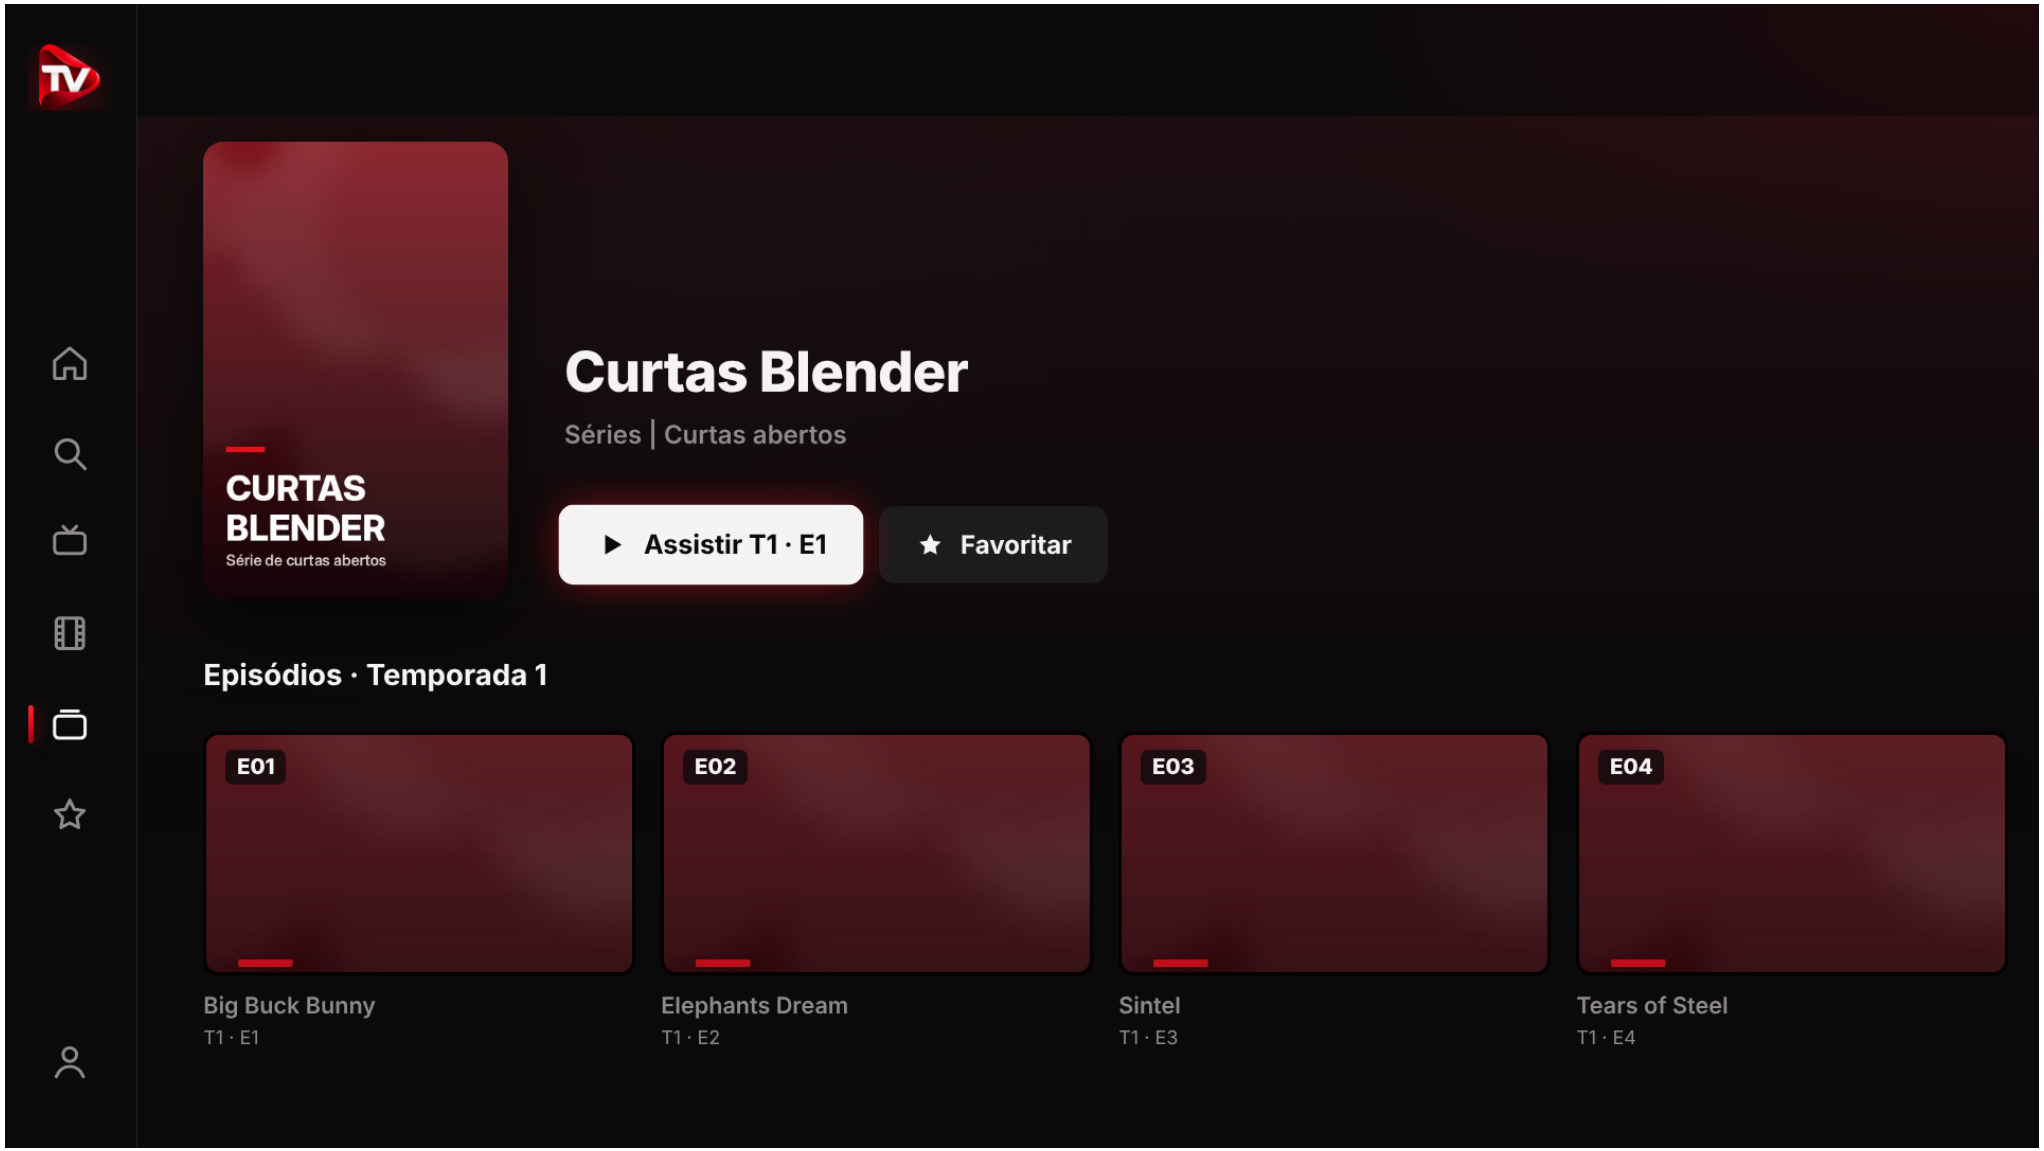

Step 5 - Movies (Filmes)

Folders on the left and covers on the right. Select a cover and press OK.
On the detail screen select "Assistir" (Watch). Left/Right seeks, OK pauses.
Back shrinks the video to a small window in the corner.

Step 6 - Series

Select a series, choose the season and an episode, press OK to play.
Playback resumes from where it stopped ("Continuar assistindo" on Home).

Step 7 - Search (Buscar)

Type a title with the on-screen keyboard and press OK to see results.
Hold OK on any cover to add it to "Meus favoritos" (My favorites).
